

Hand and Finger Safety

Slideshow Sample

In this slideshow on Hand and Finger Safety, we consider:

The Hierarchy of Controls for Hands

Crushing Hands Under Things

Hands and Suspended Loads

Hands and Keeping our Balance

PPE for Hands

Trapping Hands Between Things

Hands and Rotating Equipment

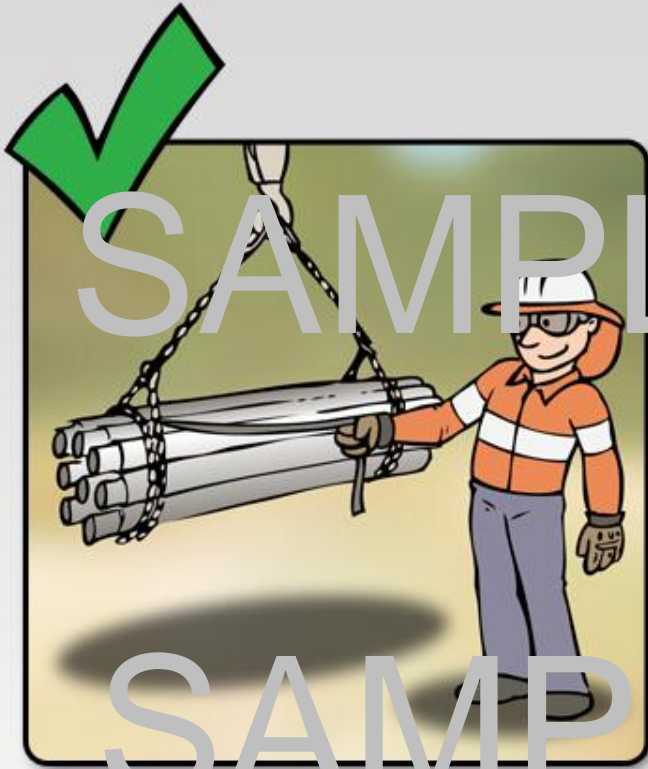

Cutting and Burning Hands

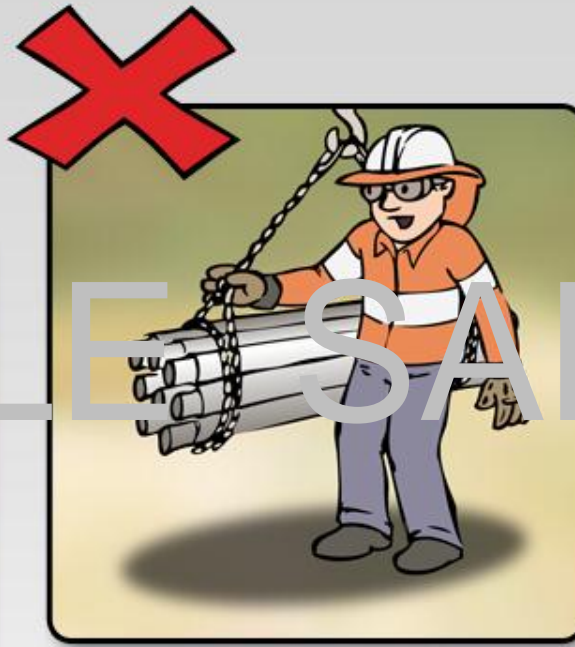

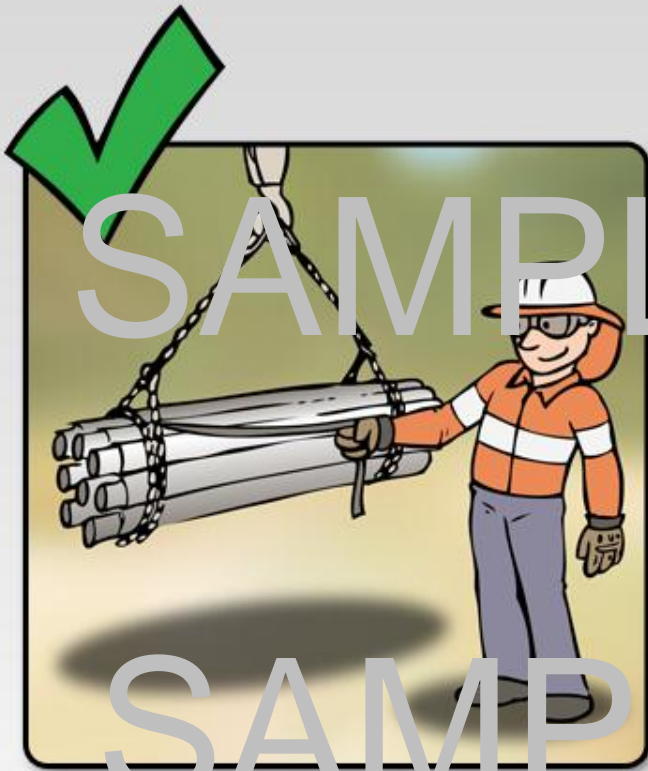

In this sample, we show the contents of the Chapter on Hands and Suspended Loads.

It covers the use of Tag Lines and Crooks (Hooks) to help people stay out from under suspended loads

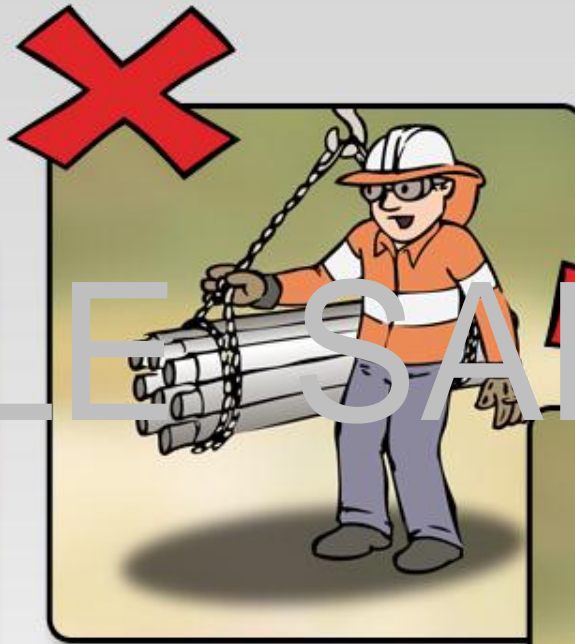

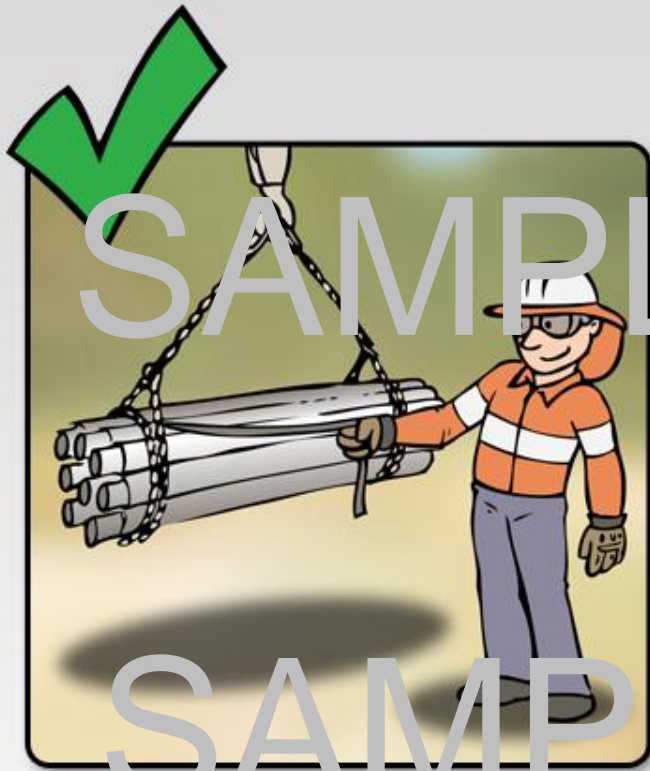

©Experteyes

- Use a tag line to control bundled objects

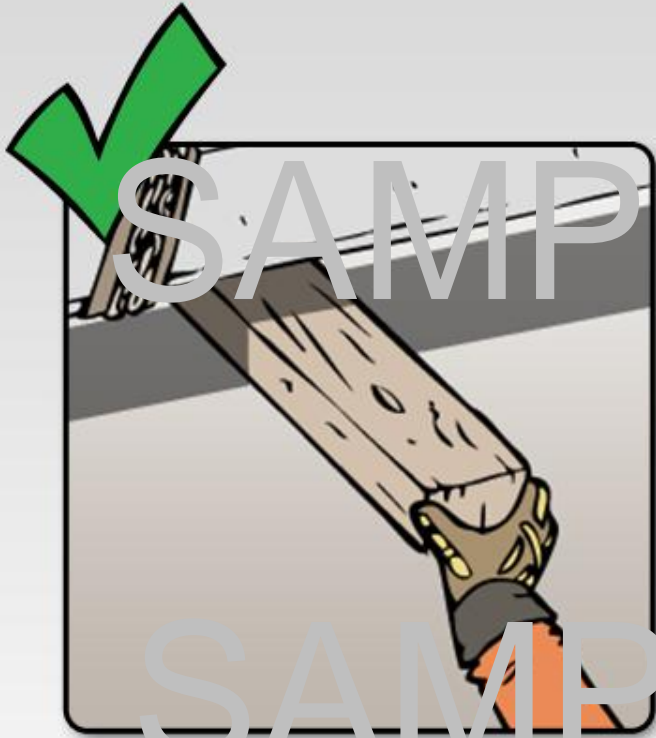

©Experteyes

- Use a tag line to control bundled objects
- Do not touch suspended bundled objects or rigging!

©Experteyes

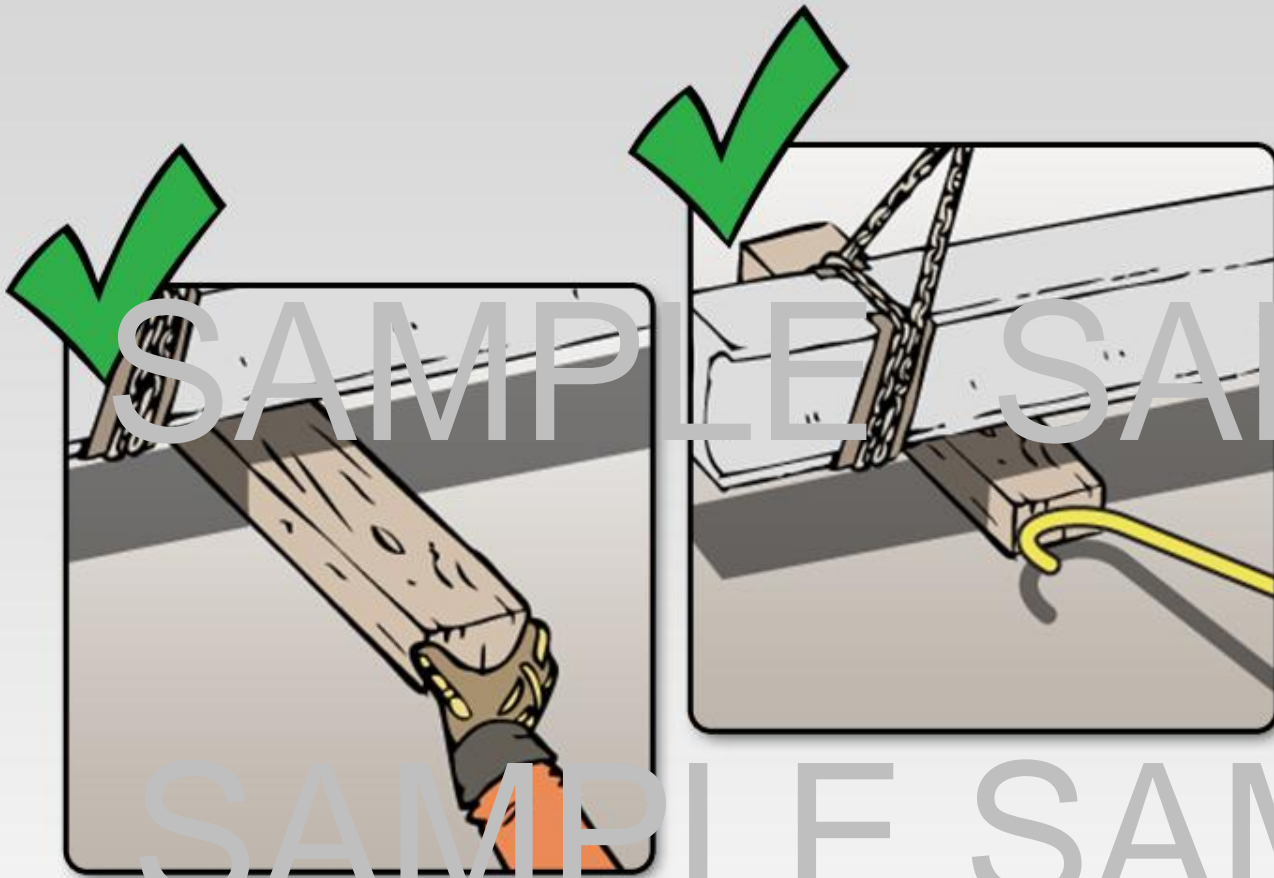

- Use a tag line to control bundled objects
- Do not touch suspended bundled objects or rigging!
Slings and loads may move as the weight is taken!

©Experteyes

Assume suspended loads will fall, or move unexpectedly:

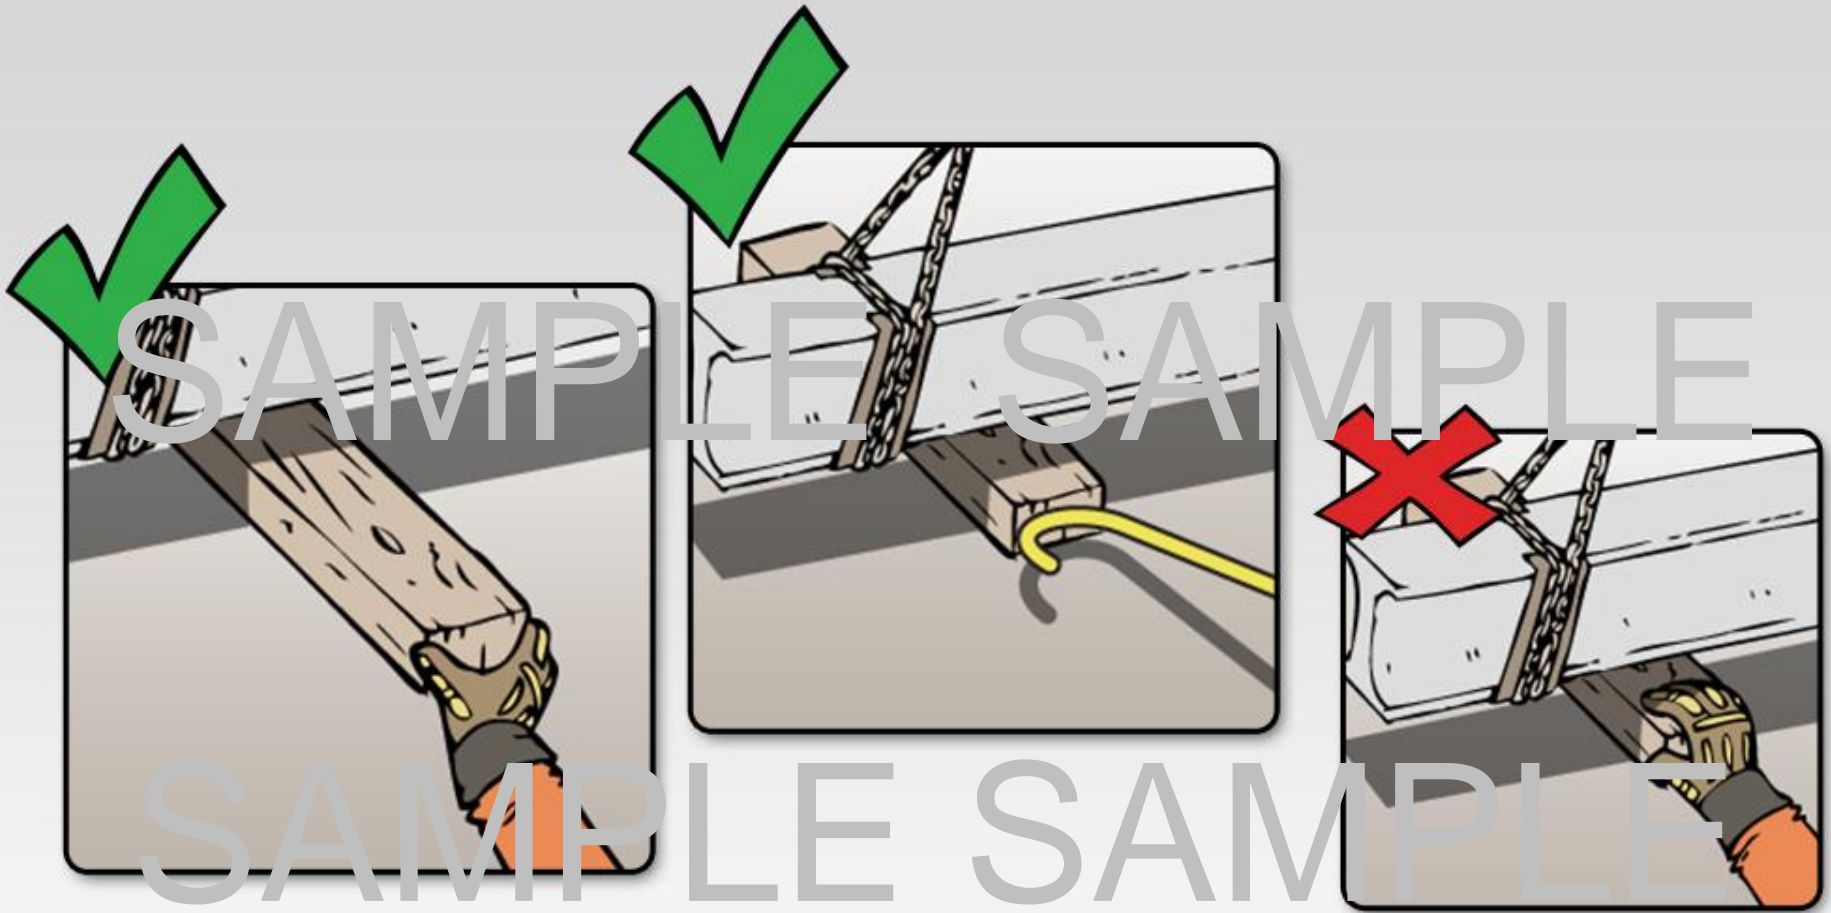

- Keep your hands and fingers out of the “line of fire”

©Experteyes

Assume suspended loads will fall, or move unexpectedly:

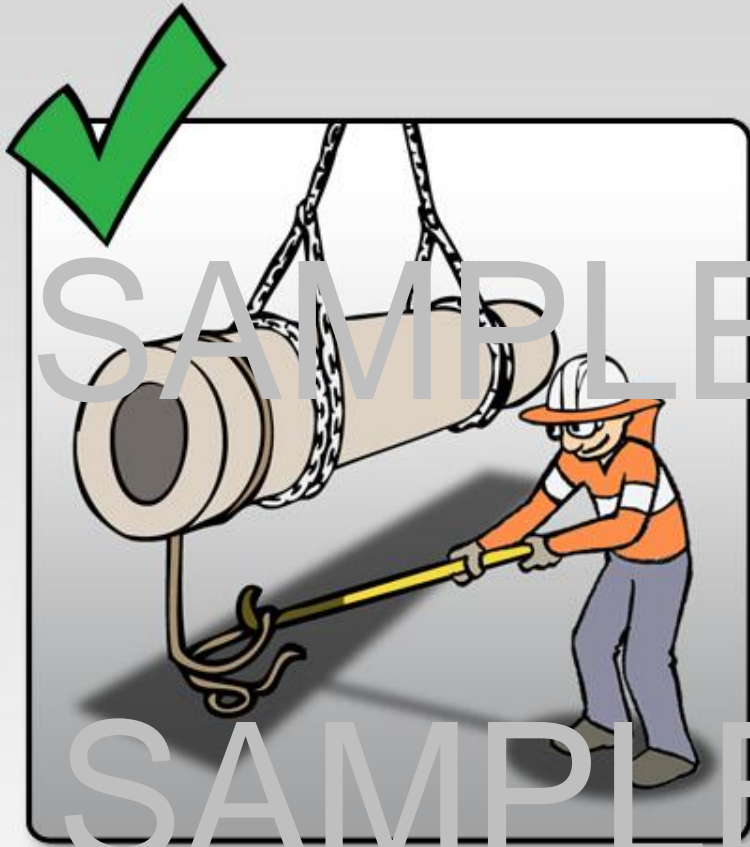

- Keep your hands and fingers out of the “line of fire”
- Crooks can be used to position and move dunnage

Assume suspended loads will fall, or move unexpectedly:

- Keep your hands and fingers out of the “line of fire”
- Crooks can be used to position and move dunnage

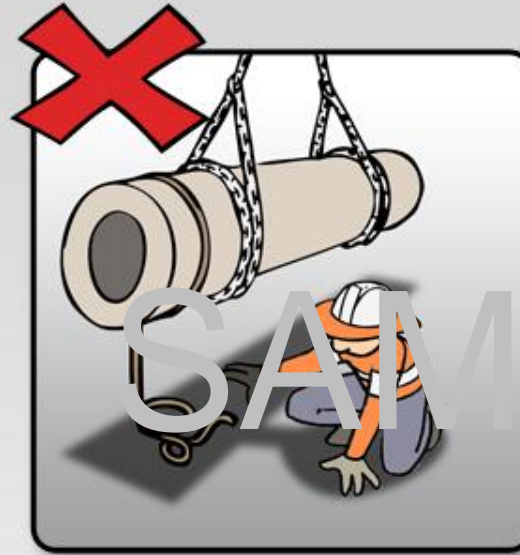

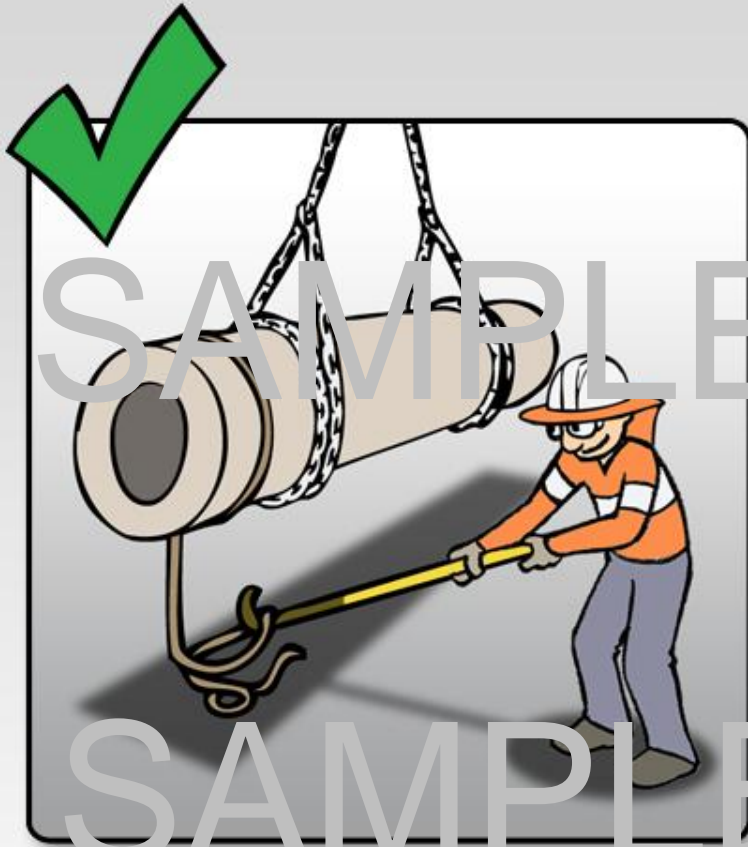

©Experteyes

Use Crooks:

- To recover tag lines and slings from under suspended loads

Do not place your body or hands in the fall zone of the load!

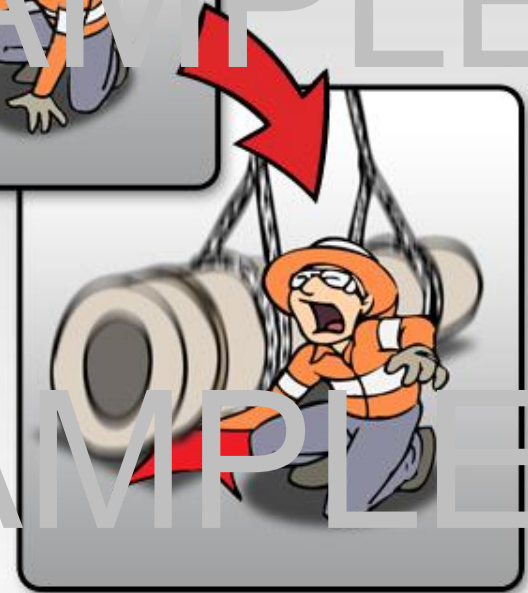

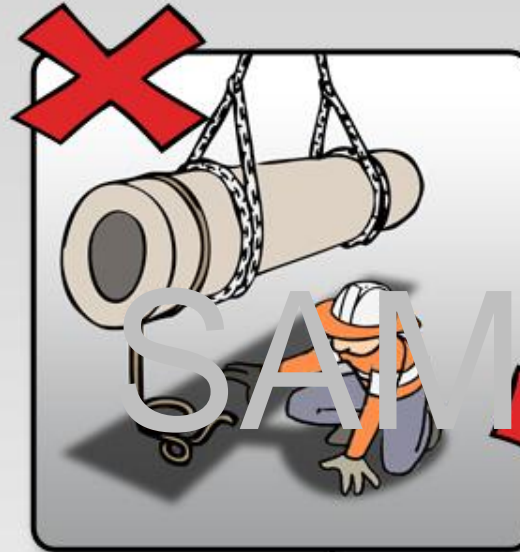

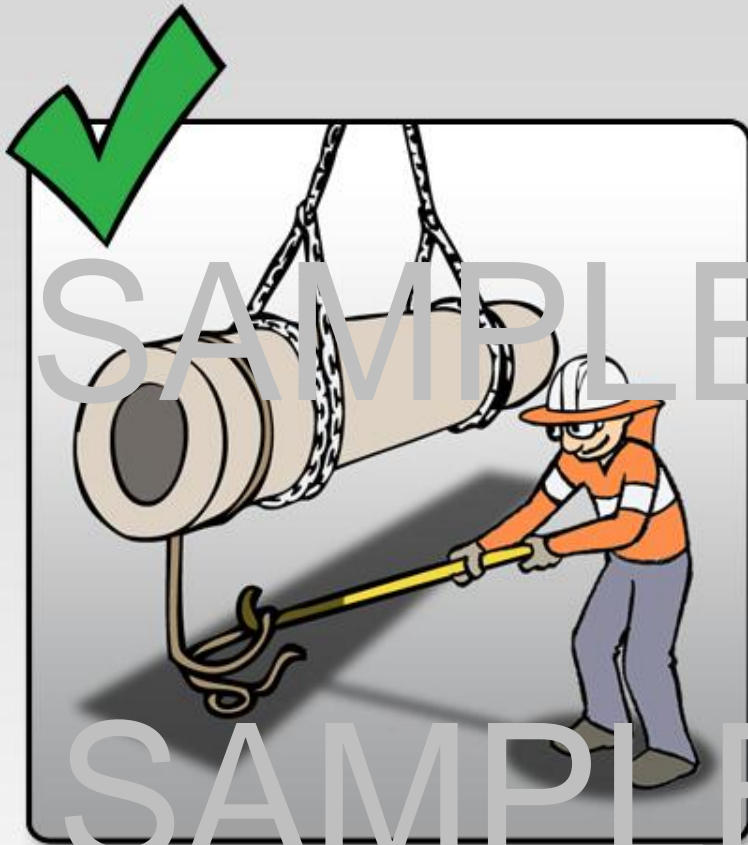

©Experteyes

Use Crooks:

- To recover tag lines and slings from under suspended loads

Do not place your body or hands in the fall zone of the load!

©Experteyes

Use Crooks:

- To recover tag lines and slings from under suspended loads
- Do not place your body or hands in the fall zone of the load!*

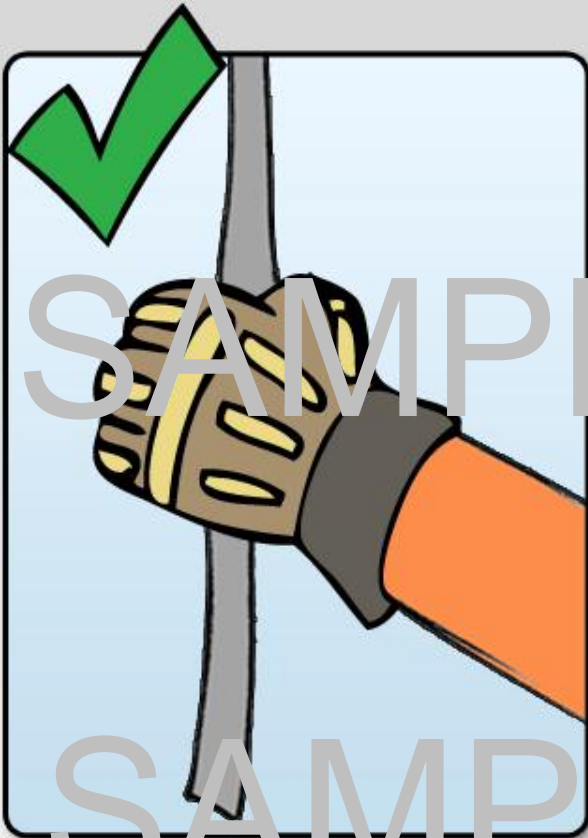

©Experteyes

When working with suspended loads:

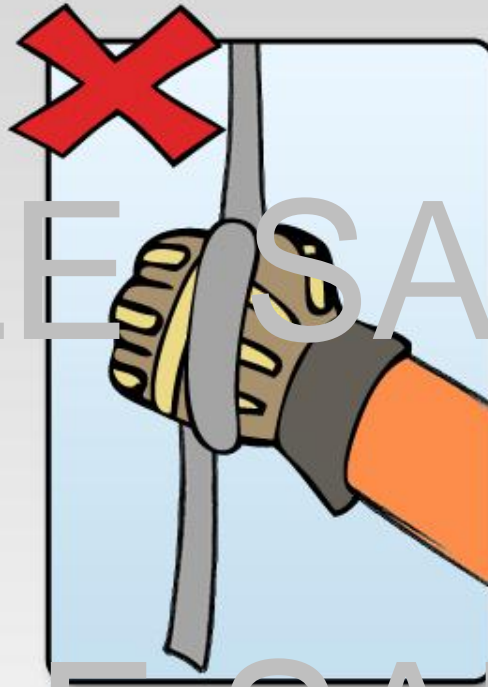

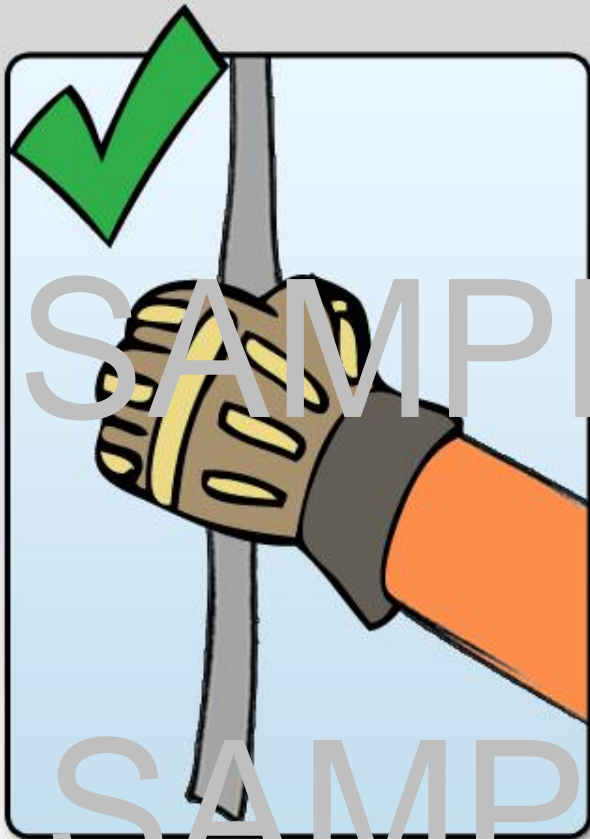

- Use a tag line to control bundled objects

Be aware of crush zones as objects move against each other!!

©Experteyes

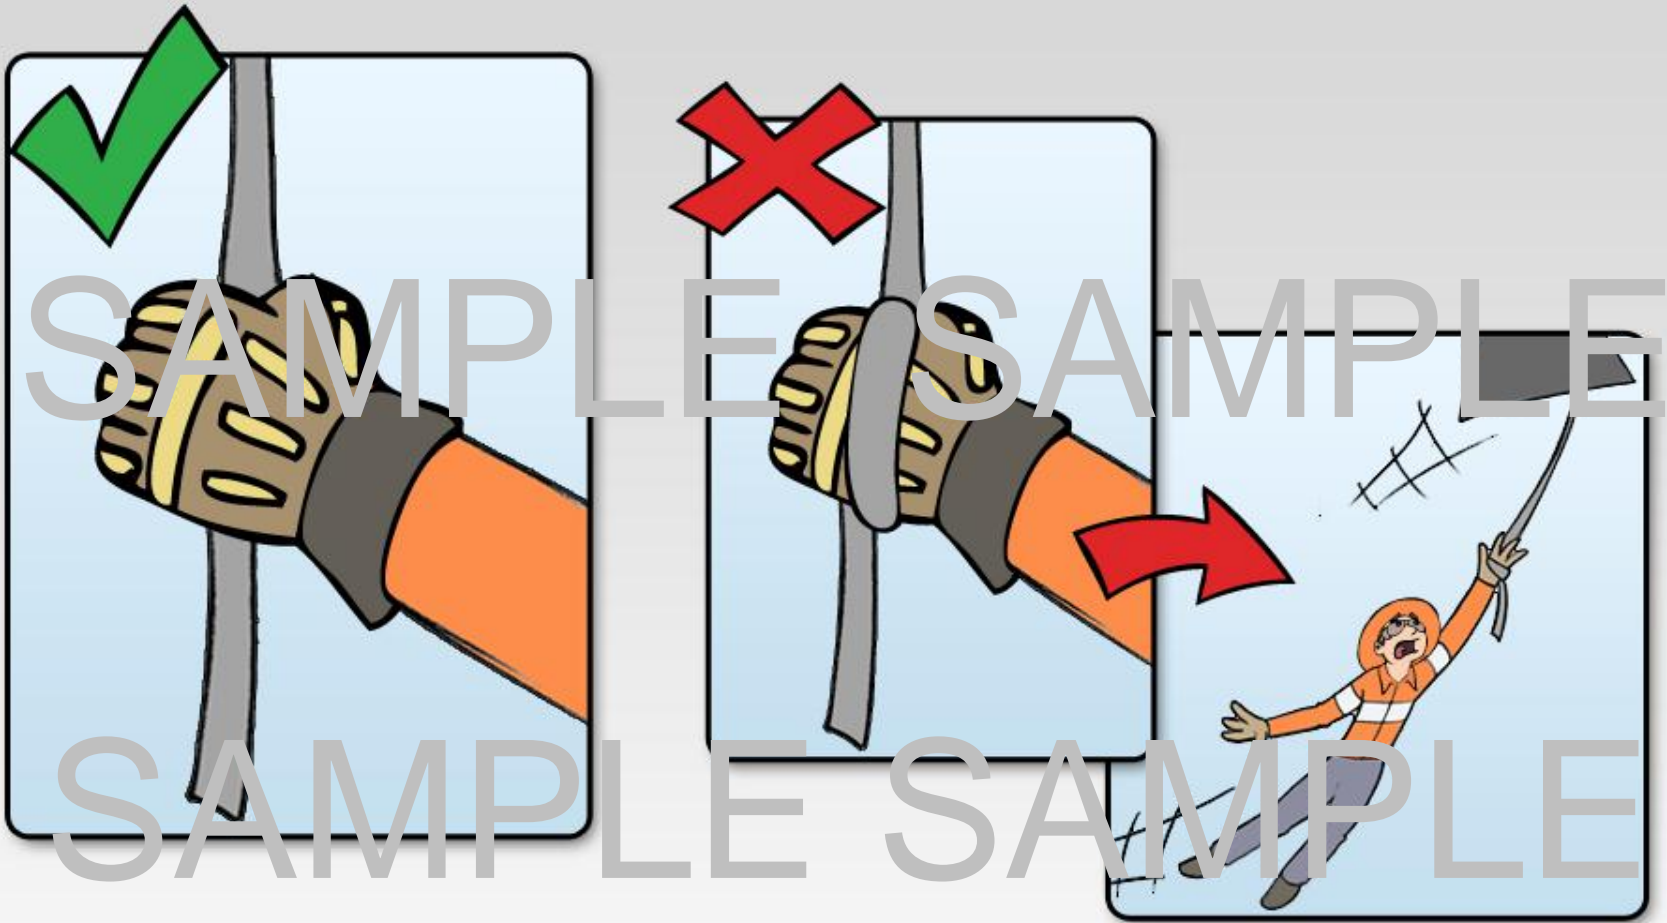

When using a tag line:

©Experteyes

When using a tag line:

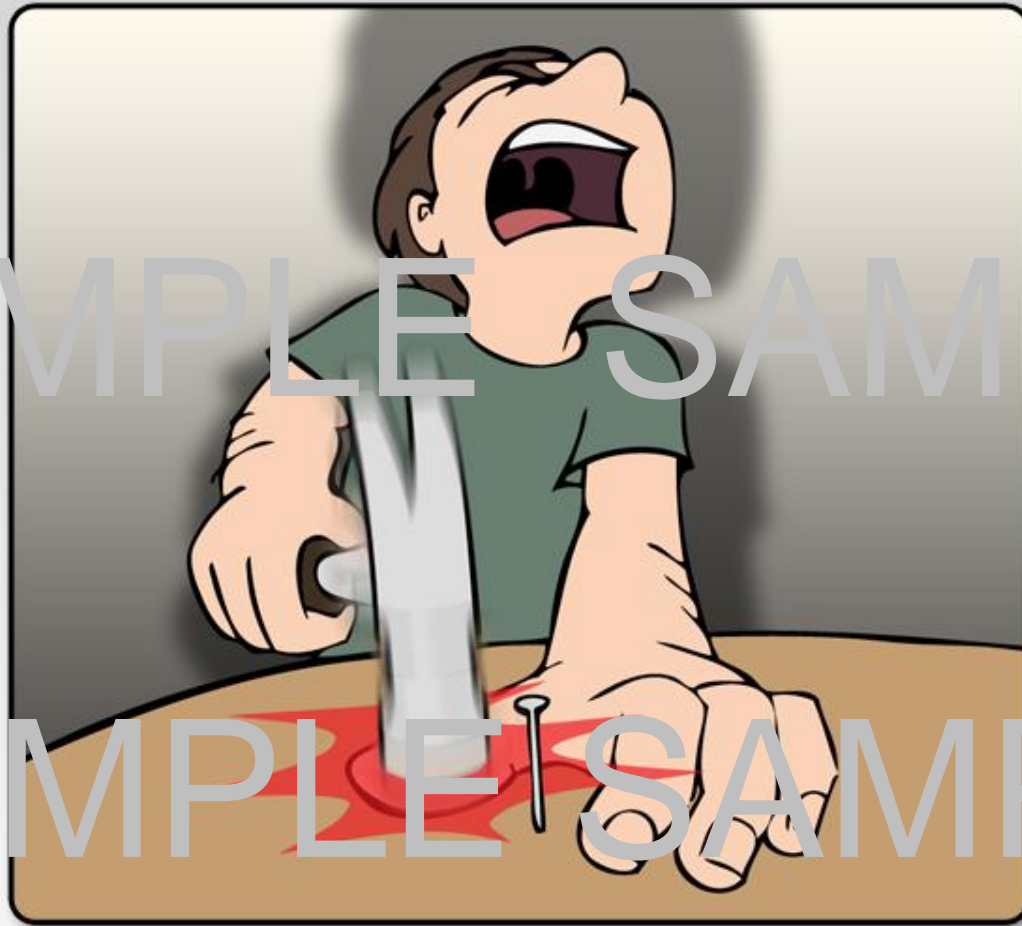

- Do NOT wrap it around your hand or wrist

©Experteyes

When using a tag line:

- Do NOT wrap it around your hand or wrist
